Hello,

Thank you for your information. As an elected politician it can be useful to receive information about all manner of things. It is, however, impossible to be fully versed in the detailed affairs of every committee and board. My primary area is *Culture and Leisure*.

I therefore ask you to **remove me from your mailing list**.

Furthermore, every email sent puts a strain on our climate through the electricity required. It may be a small amount of electricity per email, but *every little counts...* So if your matter is not directly related to Culture and Leisure, I would be happy to forgo those emails.

Thank you for your understanding.

*Yours sincerely,*

**Maria**
